

JERUSALEM SEMINARY'S

VISION & MISSION

Motivated by the knowledge that the Word of the Lord will go forth from Jerusalem to the Nations, and guided by a commitment to read the New Testament in its first century context, Jerusalem Seminary provides cutting-edge ministry training that stresses the unity of the body of Messiah expressed within the complementary frameworks of a mature Messianic Judaism and a vital Christianity.

Within these frameworks, Jerusalem Seminary explores ancient biblical texts in context in order to engage modern twenty-first century questions. The Jerusalem Seminary learning-model is community oriented, connecting students to students and students to mentors to foster a robust learning experience.

Vision: To make biblical education and ministry training in the Land of the Bible essential and transformative

Mission: To equip and empower the global Church to understand their faith in and through the Land of the Bible, by integrating rigorous academic study of Scripture, language and Land with formation for ministry and service.
